Steps for TikiWiki Socialization

✔ Workspaces new version
✔ Social Platforms
✔ integration
✔ Social Applications
✔ container
Tiki Workspaces

- Solve performance problems
- Tiki 2 integration
- Redesign for social platforms integration
  - Modules as social application containers (Opensocial & Facebook)
- Installation scripts and manuals for:
  - Learning communities
  - Enterprise communities and CRM
  - General content management, based on wiki pages and blog
Social Platforms integration

✓ User sig-in with your existing social platform account
✓ Password and authentication process delegated to the social platform
✓ No Tiki registration, get profile data from the social platform
✓ Social platform friends (contacts) invitation
✓ User activity publication to the social platform (user lifestream on the social platform)
Social platforms and connection APIs

Facebook
- APIs for external sites integration
- APIs for social applications development

MySpace
- Data Availability
- OpenSocial
